13th June 2024

2023-24 SCIENCE WEEK – 24-28th June 2024

Dear Parents and Carers,

British Science Week 2024 took place in March, however, Barkisland School's Science Week is taking place in June as science happens all year round!! It was the 30th anniversary of British Science Week this year, and therefore to celebrate this milestone, the theme is 'Time'.

The aim of the week is to honour science and have all things science happening across the school. I would like to highlight the importance of science and celebrate all of our amazing young scientists! There are lots of things to do on this website if you'd like to have a go at home [at this link](#).

Each class will be taking part in a range of exciting science lessons, activities, investigations and experiments across the course of the week. We will celebrate all of the amazing science work that has taken place during the week in our Friday Merit Assembly.

As usual, the school's social media will show you lots of what we are doing in these sessions. Please also ask your children about their day as this really helps to reinforce their learning.

If you would like any more information about the content of these lessons, please contact me via the school office.

Yours sincerely

Miss Lucia Walsh
Science Subject Leader

*Working with the Diocese of Leeds and the Metropolitan Borough of Calderdale
May he give you the desire of your heart and make all your plans succeed Psalm 20:4*
